			<input type="checkbox"/> Cubic Yards or X Tons
Days and Hours of Operation:	6 am to 8 pm	Operation Acreage:	11.9 acres
Brief Description of the Operation:	Agricultural Material Composting Operation		
<p>The operations would qualify as an Agricultural Material Composting Operation accepting agricultural waste -- notably strawberry waste from on-site sources, green waste and wood waste materials. Pre-processed green and wood material blended at permitted off-site sources will be delivered and mixed with on-site sources, will add porosity to the compost feedstock with the appropriate Carbon-Nitrogen ratio to minimize odor generation. A graded 11.9 acre site, on an all-weather surface, will be developed at the site. The facility will receive a peak of 300 tons per day of materials for composting. The compost windrows and finished product will not exceed 12,500 cubic yards on-site at any one time. An Odor Impact Minimization Plan is attached, and the operations will be inspected at least once every 3 months.</p>
